Sprint 1 Plan, SocialHub

Sprint date: April 12, 2023 – April 25, 2023

For Sprint 1 our main goal is to do research about technologies we are planning to use, and slowly start the development process.

[1] As a user I would like to be able to log into my account that stores all of my analytics and data. [4 points]
- Set up AWS (4 hrs)

- Set up Cognito (3 hrs)

Total time: 7 hours

[2] As a business owner, I want to be able to get analysts data about how certain posts are performing. [5 points]
- Research what API can be used for different social media platforms (3 hrs)

- Pick one, and implement getting data from a post (4 hrs)

- Implement basic frontend to display acquired data (3 hrs)

Total time : 10 hours

[3]As a user I would like to see a nice landing page with information about company [3 points]
- Conduct user research and gather requirements for landing page (Estimated Time: 4 hours)
- Design and develop a visually appealing and intuitive landing page (Estimated Time: 10 hours)
- Conduct usability testing and gather feedback for further refinements (Estimated Time: 1 hours)

Total Time : 21 Hrs
